Beer and Soft Drinks Dispense

A range of *CO2* and *Mixed Gas* Dispense Panels designed to make life easier and simpler for the publican.

The standard panel range caters for all sizes of club, pub and restaurant and allows for efficient and economic management of the cellar system.

CO2 distribution for soft drinks dispense, mixed gas distribution for beer dispense and a combination of the two is available.

A panel range, "the Enhancer range" is available where *CO2* and *N2/CO2* are used as the distribution gas.
